Subject Index, Volume 117

A

Acetaminophen metabolism in methionine-deficient mice chronically ingesting ethanol, 572
Acetate utilization in sheep, simulation of, 105
Acetyl CoA carboxylase in liver from acute alloxan diabetic rats, 1976
Acetyl-CoA, possible role in inhibition of CoA biosynthesis by ethanol in rats, 452
Acknowledgment, 1999
ACTH, effect on adrenal ascorbic acid in guinea pigs, 1570
Adenylate cyclase activity, adrenal, in guinea pigs dosed with ascorbic acid, 1108
Adiposity, diet-induced, lipoprotein metabolism in rat model of, 1655
— in gastronomy-reared rats, 1259
Adrenalectomy, effects on energy balance in obese mice, 1115
—, — — — — — rats with obesity-producing knife cuts, 1121
Aflatoxin B_1-induced preneoplastic liver lesions, dietary protein level effect on, 1298
Aging, dietary restriction and, commentary, 1650
— and digestion of carbohydrates in rats, 63
— in mice, genetic differences in effects of food restriction on, 376
Albumin gene transcription in rat liver, effect of low protein, high energy diet on, 1141
Alfalfa saponins, effect on nutrient digestion by ruminants, 919
Alloxan diabetes, effects on acetyl CoA carboxylase in rat liver, 1976
Almquist, Herman James (1903–), biographical sketch, 409
Amino acid concentrations in diet of growing kittens, effect on plasma urea nitrogen, 1689
— — — in plasma of humans drinking aspartame-sweetened beverage, 1989
— — — in plasma of rats fed different dietary proteins, 2027
— — — and ratios in rat diets, method for formulation of, 1936
— — metabolism by lactating mammary gland, effect of fasting on, 533
— — requirements of adult humans, issues and opinions, 1484
— — — of sheep, 1207
— — supplementation of low protein diet, effect on neurotransmitters in rats, 42
— — utilization in sheep, simulation of, 116
Amino acids in chicks, absorption of and endogenous, 1459
— — — plasma of kittens fed excess dietary methionine, 1838
— —, sulfur-containing, effect on feathers of chicks, 1859
Antimetabolites, development of the concept of, symposium, 1322
Apolipoproteins in rat serum during protein malnutrition and refeeding, 641
Arginine deficiency, effects on urea cycle enzymes of rat liver, hepatocytes and hepatoma cells, 1827
Arginine-deficient diet, effects in humans, 1734
Arginine, failure of excess lysine to antagonize in young pigs, 1396
Arteriosclerosis, diet-induced, attenuation by exercise in rats, 986
Ascorbic acid, effect on adrenal adenylate cyclase and plasma cortisol in guinea pigs, 1108
— —,— — cholesterol concentrations in OD rats, 1036
— —,— — copper absorption and ceruloplasmin levels of young men, 2109
— —,— — flavin-containing monooxygenase in guinea pigs, 286
— —,— — tissue vitamin C in mice, 291
— — and lipid metabolism in rats, PCB and vitamin E effects on, 1217
— —, uptake and release into adrenals of ACTH-injected guinea pigs, 1570
Atropine-nonsensitive feedback regulation of pancreatic enzyme secretion in rats, 948
Autoimmune-prone mice, dietary factors affecting longevity in, 1129, 1136
Autoimmunity in NZB mice, failure of zinc deprivation to alter, 177
Avian lung eicosanoids, modulation by dietary omega-3 fatty acids, 1197
Avians, metabolic aspects of calcification in, symposium, 783

B

Balance studies, commentary, 1811
Beef fat, dietary, effect on colon tumorigenesis in rats, 739
Bile composition and flow in rats fed a low protein diet, 678
Bile-pancreatic fluid, effect of varying dietary zinc levels on, 1060
Biographical Article, Herman James Almquist (1903–), 409
— —, John Fleming Brock (1905–1983), 1814
Biotin absorption by rat distal intestine, 2121
—, facilitated uptake by hamster enterocytes, 527
Body composition in protein-deficient chicks, 1532
— — of rats fed low or high protein diets and grown at controlled rates, 2135
— — of young rats, effects of weight loss, protein deficiency and energy deprivation on, 933
Body weight changes in later life of male rats, protein and energy metabolism effects on, 1751
Bombesin, effects on diet intake in rats, 976
Bone, endochondral, role of epiphyseal cartilage in formation of, 784
Book Review, *Breast-Feeding and Fertility (Journal of Biosocial Science, Supplement No. 9)*, 1158
— —, *Clinical Aspects of Human Carnitine Deficiency*, 1482
— —, *Community Nutrition*, 2nd ed., 776
— —, *Diet and Behavior: A Multidisciplinary Evaluation, Proceedings of a Symposium, November 24–29, 1984, Arlington, Virginia [Nutrition Reviews, vol. 44 (Supplement)]*, 1308
— —, *Dietary Fiber and Obesity (Current Topics in Nutrition and Disease, vol. 14)*, 212

——, *Weaning: Why, What and When? (Nestlé Nutrition Workshop Series*, vol. 10), 1483
Bradykinin, effect of zinc deficiency on vasodilation response to in rats, 490
Brain, fetal rat, enzyme markers of maternal malnutrition in, 144
—, rhesus monkey, effects of maternal and postnatal protein malnutrition on, 1844
Bran phytate, digestibility in humans, 2061
Brock, John Fleming (1905–1983), biographical article, 1814
Butylated hydroxytoluene potentiation of ethanol-induced hepatic vitamin A depletion, 70
γ-Butyrobetaine hydroxylase activity and carnitine biosynthesis in human infants, 1024

C

Cadmium-induced immunopathology in mice, zinc prevention of, 1788
Caffeine, effects on calcium excretion in the rat, 1224
Calbindin (calcium-binding protein) concentration in young and aged laying hens, 1775
Calcium absorption, intestinal, mechanisms and applications, critical review, 1347
— bioavailability in rats, oxalic acid effect on, 1903
— dynamics, model system approach to, 791
—, effects on calcium homeostasis at parturition in the dairy cow, 201
— excretion in the rat, effects of caffeine and theophylline ingestion on, 1224
— and hypertension, issues and opinions, 1806
— intake and skeletal integrity in women, commentary, 631
— logistics in the laying hen, 619
— metabolism, avian, renal regulation of, 808
— restriction, effect on 25-hydroxycholecalciferol in plasma of rats, 914
— supplementation, effect on forearm bone mineral content in postmenopausal women, 1929
— supplements, bioavailability of calcium from and effects on utilization of other essential elements in rats, 717
Cancer, dietary fiber and, issues and opinions, 1319
Carbohydrate, complex or simple in high fiber diets, effect on mineral balances of men and women, 48
—, effect on glucagon and insulin receptors in genetically obese rats, 1291
— and fat intake, influence on diet-induced thermogenesis in rats, 1721
— feeding prior to exercise, effect on exercise depletion of substrate levels in rats, 593
Carbohydrate-to-fat ratio in diet, effects on opiate-stimulated and naloxone-, cholecystokinin- and bombesin-suppressed eating in rats, 976
Carboydrates, influence on essential fatty acid deficiency during pregnancy in rats, 1504
—, utilization by channel catfish, 280
Carnitine biosynthesis in human infants, 1024
— deficiency, commentary, 1501
— metabolism, neonatal piglet as model for, 754
Cartilage, epiphyseal, role in endochondral bone formation, 784
Casein, effects on plasma cholesterol level in jejunectomized or ileectomized rats, 1527
—, pancreatic response to long-term feeding of in rats, 247
Cassava, boiled and oven-dried, digestibility in children, 129
— digestibility in children, 2116
Catecholamines in brain of copper-deficient rats fed milk and casein-based diets, 1890
Cat hepatocytes, cysteine and cysteinesulfinate metabolism in, 549
Cats, dietary taurine effect on blood taurine levels in, 1945
—, growing, effect of dietary amino acid concentrations on plasma urea nitrogen in, 1689
—, iron requirement of, 928
Cell-mediated cytotoxicity, relationship to dietary fat-enhanced mammary tumorigenesis in mice, 955
Cellulose, intestinal changes in monkeys after long-term feeding of, 253
Cephalic reflexes, role in digestion and possible roles in absorption and metabolism, 1191
Cereals, zinc absorption from by humans, 1898
Ceruloplasmin levels in rats, regulation by dietary copper and vitamin A, 1615
Channel catfish, dietary carbohydrate utilization by, 280
Chicken intestinal segments, effect of zinc source and picolinic acid on zinc uptake by, 1704
Chickens, diet and expression of scoliosis in, 189
—, factors influencing the incidence of tibial dyschondroplasia in, 964
—, fasting and development of tibial dyschondroplasia in, 194
— with high and low body weights, glucose tolerance, plasma insulin and immunoreactive glucagon in, 941
—, lean and fat, lipogenesis of, 428
— of two strains with different growth characteristics, hormonal responses to protein restriction in, 758
Chicks, amino acid absorption and endogenous amino acids in, 1459
—, changes in feathers with dietary sulfur-containing amino acids, 1859
—, dietary lysine effect on polyamine synthesis in, 1852
—, immunologically growth-depressed, corticosterone and interleukin-1 effects on, 1629
—, inhibition of selenium-dependent glutathione peroxidase activity by mercaptans in, 880
—, magnesium-induced catharsis in, 1907
—, protein-deficient, thyroid function, energy balance, body composition and organ growth in, 1532
—, responses to excess dietary magnesium during *Eimeria acervulina* infection or ammonium chloride ingestion, 1053
—, selenium-deficient, dietary vitamin E and pancreatic atrophy in, 460
—, selenium-mercury interaction during intestinal selenium absorption in, 1453
Children, cassava digestibility in, 129, 2116
Cholecystokinin, effects on diet intake in rats, 976
Cholesterol absorption by rats, effects of menhaden oil, fish oil concentrate and corn oil on, 1676
— concentrations in serum and liver of OD rats, dietary ascorbic acid, cholesterol and PCB effects on, 1036
— distribution in pigs, effect of animal and vegetable fats and proteins on, 1727
— esterification in rat hepatic tissue in essential fatty acid deficiency, 666
— metabolism in immature and mature rats, effects of dietary animal and plant proteins on, 30
—, plasma, in jejunectomized or ileectomized rats fed casein or soybean protein isolate diets, 1527
— synthesis inhibition, 1330
Cimetidine, effect on trace element and mineral distribution in rats, 1576
CoA biosynthesis in rats, possible role of acetyl-CoA in ethanol inhibition of, 452
— status of ethanol-treated rats, 443

Cocoa butter, digestibility in rats, 660
Coconut oil, effects on lipoprotein lipases and lipoproteins in rats, 1011
Commentary, cafeteria diet—an inappropriate tool for studies of thermogenesis, 227
—, calcium intake and skeletal integrity, 631
—, carnitine deficiency, 1501
—, dietary restriction and aging, 1650
—, Historical, the two faces of selenium, 2002
—, use and misuse of balance studies, 1811
Complement component C1q, concentrations in plasma of guinea pigs fed different levels of vitamin C, 764
Contraceptives, oral, zinc requirement of women using, issues and opinions, 217
Copper absorption and ceruloplasmin levels of young men, effect of ascorbic acid intake on, 2109
— deficiency, alteration of murine lymphocyte plasma membrane composition by, 1076
— —, effect on active oxygen generation in rat lung and liver microsomes, 894
— —, effect on erythrocyte membrane proteins of rats, 1085
— interactions with iron and zinc, 1434
— metabolism, hepatic, metallothionein involvement in, critical review, 19
— in milk and tissues of lethal milk mutant mice, 83
—, role in regulation of ceruloplasmin levels in rats, 1615
— in turkey poults during starvation and refeeding, 481
Copper-deficient, fructose-fed rats, pancreatic enzyme activities in small intestine of, 1447
— rats, milk and casein-based diets for study of brain catecholamines in, 1890
Corn oil, digestibility in rats, 660
Corticosterone, influence on immunologically mediated growth depression in chicks, 1629
Cow, dairy, effects of dietary calcium and age on calcium homeostasis at parturition in, 201
Cysteine, effects on mineral toxicities, 1003
— metabolism in rat and cat hepatocytes, 549
— proteinase inhibitor, testicular, level in vitamin E–deficient rats, 1416
Cysteinesulfinate metabolism in rat and cat hepatocytes, 549

D

Dehydroepiandrosterone acetate, effect on liver peroxisomal enzyme activities of male and female rats, 1287
Diet, cafeteria, in studies of thermogenesis, commentary, 227
— and health, conference commentary, 1353
—, high carbohydrate, effect on digestive enzymes in young and middle-aged rats, 63
—, high fat, effect on glucose turnover rate in lactating rat, 1275
—, high fiber with complex or simple carbohydrate, and mineral balances of men and women, 48
—, high protein, carbohydrate-free, gluconeogenesis development in isolated rat hepatocytes after feeding, 164
—, liquid, increases in energy intake, weight gain and body fat in rats fed, 2127
—, low protein, amino acid supplementation of and neurotransmitter concentrations in rats, 42
—, purified, for white sturgeon, 328
— and scoliosis expression in susceptible chickens, 189
Dietary restriction and aging, commentary, 1650
— —, effects on liver enzymes and lipid peroxidation in mice, 361
— surveys, number of days of food records required in, 1638
Diets, high fat, effect on energy balance and thermogenesis in lean and obese mice, 2147
—, high fiber, calculation of metabolizable energy of, 267
—, low or high protein, effect on body composition of rats grown at controlled rates, 2135
Digestibility of cocoa butter and corn oil in rats, 660
Disaccharide effect of sucrose feeding in rats, 689
Disulfiram, effects on incidence of tibial dyschondroplasia in chickens, 964
DMBA metabolism in rat mammary epithelial cells, influence of prior dietary protein intake on, 587
Dogs, computer simulation of iron absorption in, 1067
—, dietary iron requirement of, 928
—, thermogenesis induced by cold but not diet in, 1280
Drug-nutrient, interactions, 416
Dyschondroplasia, tibial, in chickens, effect of short fasts on, 194
— ,— ,— —, factors influencing the incidence of, 964

E

Editorial comment, 1
Eels, metabolism of dietary linoleic acid by, 1379
Egg formation by the hen, endocrinology-nutrition interaction in, 603
— — — — —, energy balance during, 605
— — — — —, protein requirement and ovulatory cycle in, 612
Egg white, pancreatic response to long-term feeding of in rats, 247
Eicosanoids, avian lung, modulation by dietary omega-3 fatty acids, 1197
Eicosapentaenoic acid ingestion, effect on fatty acid compositions of rat neural membrane phospholipids, 1663
Eimeria acervulina infection, effect on response to excess dietary magnesium, 1053
Electrolyte balance of young rats deprived of protein and energy, 933
Energy balance in obese mice, effects of adrenalectomy on, 1115
— — in protein-deficient chicks, 1532
— — in rats with obesity-producing hypothalamic knife cuts, effects of adrenalectomy on, 1121
— — and thermogenesis in lean and obese mice, effect of high fat diets on, 2147
— efficiency of rats fed low protein diets, lack of correlation with thyroid hormones, 368
— metabolism, effects on body weight changes in later life of male rats, 1751
— — in livestock species, symposium, 1167
— — of mice with major gene for rapid postweaning gain, 539
Enzyme markers of maternal malnutrition in fetal rat brain, 144
Enzymes, digestive, in young and middle-aged rats, response to a high carbohydrate diet, 63
Ephedrine/methylxanthines mixture, reversal of obesity in genetically obese rats by, 383
Epidemiology, nutritional, and national surveys, 401
Ergocalciferol, growth retardation in fetal rats by, 342
Errata, 1342, 1809
Erythrocyte membrane proteins in copper-deficient rats, 1085
— —, rat, dietary zinc deficiency and phosphorylation of, 2096
Erythrocytes, rat, increased osmotic fragility in zinc deficiency, 1883
Essential fatty acid deficiency, plasma apolipoprotein and high density lipoprotein levels in, 2016
— — — — during pregnancy in rats, dietary carbohydrate influence on, 1504
— — — —, rapid induction and early indicators of, 666
Essential fatty acid and lipid composition of rat plasma and erythrocytes, iron intake influence on, 1514
Essential fatty acid–deficient guinea pigs, dietary primrose oil and fish oil effects on the skin of, 1360
Ethambutol, effects on zinc metabolism in rats, 704
Ethanol ingestion, effects on pantothenate and CoA status of rats, 443
— inhibition of CoA biosynthesis in rats, possible role of acetyl-CoA in, 452
— interaction with methionine deficiency, effect on acetaminophen metabolism in mice, 572
Exercise attenuation of diet-induced arteriosclerosis in rats, 986

— depletion of substrate levels in rats, modification by preexercise carbohydrate feeding, 593
— and growth of rats during intermittent fasting, 390
— and riboflavin status of rats, 298
Exercise-retirement effects, modulation by dietary fat in hamster, 1149

F

Fasting, effect on amino acid metabolism by lactating mammary gland, 533
—, maternal, and growth retardation in rat fetuses, 342
— and tibial dyschondroplasia in chickens, 194
Fat, dietary, effect on stomach and intestine of sows, 1759
—, —, interaction with level and type of dietary iron in the rat, 501
—, —, modulation of exercise-retirement effects in hamsters by, 1149
—, hydrogenated, in maternal rat diet, effect on milk composition, 232
Fatty acid composition of organ lipids in mice, modification by dietary menhaden oil, 824
— — deficiency, impaired platelet aggregation and thromboxane generation in, 1520
— — distribution in rats, influence of dietary fat on, 660
Fatty acid–binding protein activity in tissues from pigs fed a high oleate oil diet, 2021
Fatty acids, n-3, effect on fatty acid compositions of neural tissue membrane phospholipids, 1663

— status of protein-deficient rats, 2142
α- and γ-Tocopherols, mechanisms of absorption, transport and tissue uptake in rats, 1562
RRR-α-Tocopheryl acetate, effects on survival of RCS rats, 208
Trace element mixture, effects on incidence of tibial dyschondroplasia in chickens, 964
Trace elements, tissue distribution in cimetidine-dosed rats, 1576
Transketolase activity in rainbow trout, 1422
Transthyretin, synthesis in yolk sac and fetus in the rat, 436
Trimethylselenonium, dose-response relations in rat urinary excretion of, 1609
Trypsin inhibitors and human health, issues and opinions, 398
——, pancreatic response to in rats, 247
Tryptophan, brain and plasma levels in rats, changes due to amino acid supplementation of a low protein diet, 42
Tumorigenesis, dietary fat-enhanced in mouse mammary tissue, relationship of lymphocyte activation and cell-mediated cytotoxicity to, 955
— in rat colon, effects of dietary beef fat, rat strain and nutrient composition on, 739
Turkey poults, effects of starvation and refeeding on tissue metals in, 481
Tyrosine effect on phenylalanine requirement of kittens, 1102

U

Undernutrition, cellular development of skeletal muscle during recovery from in rats, 1767
—, protein energy, effect on lymphoid organ mRNA translatability in young rats, 242

V

Vanadate effects on insulin action in rat adipose tissue, 559
Vasodilation response in zinc deficiency in rats, 490
Vitamin A data from the Health and Nutrition Examination Surveys, analysis of, 636
— — deficiency, anomalous growth of rat incisor teeth during, 1265
— — —, effect on immune responses in mice, 857
— —, dietary, role in regulation of ceruloplasmin levels in rats, 1615
— — distribution in liver cells of rats with vitamin A deficiency, 874
— —, hepatic, ethanol-induced depletion of potentiated by phenobarbital and butylated hydroxytoluene, 70
— — levels of the pregnant rat and fetus, 1410
— —, in rat hepatocytes, amount and composition as a function of cell preparation and total liver stores, 77
— — status, effect on retinol utilization rate in rats, 694
— — — in rat dams and pups exposed to TCDD, 580
Vitamin B-6 deficiency, maternal, effects on neocortex development in rats, 1045
— — metabolism in pregnant rats, 1866
— — nutritional status during pregnancy in humans, assessment of, 1303
Vitamin C feeding, effect on complement component C1q concentrations in guinea pig plasma, 764
Vitamin D endocrine system in avians, 797
— — metabolism in young and aged laying hens, 1775
Vitamin E–deficient rats, testicular cysteine proteinase inhibitor level in, 1416
Vitamin E, dietary, influence on nutritional pancreatic atrophy in selenium-deficient chicks, 460
— — feeding with PCB, effects on ascorbic acid and lipid metabolism in rats, 1217
Vitamin K antagonists, 1325
Vitamin and mineral supplements, statement on, 1649

W

Wheat bran, dietary, and nutrient homeostasis in men, 153
— germ, effect on lipid status of rats fed a high fat–cholesterol diet, 838
—, iron bioavailability from six varieties of, 476
Women, calcium intake and skeletal integrity in, commentary, 631
—, effect of fasting on amino acid metabolism by lactating mammary gland in, 533
—, postmenopausal, effect of calcium supplementation on forearm bone mineral content in, 1929

X

Xanthine oxidase activity and immunologically detectable protein, regulation in rats in response to dietary protein and iron, 1697
— — turnover in rat liver, dietary protein and iron effects on, 2054

Z

Zinc, absorption from soy protein meals in humans, 321
— — — various cereals by humans, 1898
— bioavailability in rats, dietary conditions influencing, 1913
— deficiency, effect on active oxygen generation in rat lung and liver microsomes, 894
— —, — — protein synthesis in cell-free systems from rat liver, 1234
— —, — — rat erythrocyte membrane phosphorylation, 2096
— —, osmotic fragility of rat erythrocytes in, 1883
— — severity in rats, lack of effect of dietary fructose on, 1443
— — and vasodilation response in rats, 490
Zinc-deficient mice, macrophage-mediated depression of T-cell proliferation in, 1982
— rats, erythrocyte metallothionein levels in, 1595
— —, ^{59}Fe retention in developing fetuses of, 1875
Zinc deprivation, failure to alter established autoimmunity in NZB mice, 177
—, dietary, effects on metallothionein in newborn rat liver, 709
—, effects on cadmium-induced immunopathology in mice, 1788
— interactions with iron and copper, 1434
— metabolism in genetically obese mice, 886
— — — rats treated with ethambutol, 704
— in milk and tissues of lethal milk mutant mice, 83
— retention in the rat, effect of zinc intake and dose on, 1427
— supply, maternal, effect on blood and tissue metallothionein concentrations in suckling rats, 1588
— in turkey poults during starvation and refeeding, 481
— uptake by pig and poultry intestinal segments, effect of zinc source and picolinic acid on, 1704
—, varying dietary, effect on concentration and localization of zinc in rat bile-pancreatic fluid, 1060
